PROFESSIONAL SUMMARY

Senior Mobile App Engineer with approximately 5 years of experience designing, building, and maintaining production mobile applications across cross-platform and native technologies, including React Native, Flutter/Dart, and native iOS (Swift/SwiftUI), alongside Android. Skilled in API and third-party SDK integrations, real-time communication features, and Firebase/cloud services, with hands-on experience in testing, CI/CD, and App Store/Google Play deployments. Proven track record of owning features end-to-end — from architecture through release — while collaborating closely with backend, QA, product, and design teams.

EXPERIENCE

Senior Software Engineer — Digital Gravity, Karachi *June 2025 – Present*

- Led the migration of a legacy real estate mobile application to the latest React Native architecture, improving app stability and maintainability.
- Architected and integrated In-App Purchases alongside multiple third-party payment methods, enabling secure in-app monetization.

Software Engineer — Koder360, Karachi *September 2023 – May 2025*

- Engineered a digital marketplace mobile application for buying and selling mobile-related items, including business and user profile management.
- Integrated social login (Facebook & Google) to streamline user onboarding and authentication.
- Delivered a dedicated mobile application for testing device sensors and validating hardware compatibility.

Associate Software Engineer — Tech Verticks, Karachi *May 2021 – September 2023*

- Built a horse, veterinary, and farm management mobile application covering scheduling and record-keeping workflows.
- Delivered a restaurant table and booking management system for end-to-end reservation handling.
- Developed a services marketplace application connecting local and remote vendors with customers.
- Implemented Stripe payment integration, real-time chat via WebSockets, and WebRTC-based audio/video calling.

PROJECTS

Mobile App Projects

Al Madallah Healthcare | *Flutter, Dart*
Google Play
Cross-platform healthcare mobile application built with Flutter and Dart, published on Google Play.

Beyond Developments | *TypeScript, React Native*
Google Play
Real estate mobile application supporting property browsing and customer-facing workflows, built with React Native.

Beyond Broker | *TypeScript, React Native, Firebase*
App Store
Real estate broker mobile application supporting property listings and client management, built with React Native and Firebase.

GJ Properties | *TypeScript, React Native, Firebase*
Google Play
Real estate mobile application for property browsing and management, built with React Native and Firebase.

Mobilez Market | *TypeScript, React Native, Firebase, AdMob*
Google Play
Marketplace mobile application for buying and selling mobile devices, integrated with Firebase and AdMob for in-app monetization.

Fleetile | *Swift, SwiftUI*
App Store
Native iOS vehicle intelligence application built using Swift and SwiftUI, delivered for App Store release — reflecting hands-on native mobile engineering experience.

Web Projects

Beyond Developments | *Next.js, TypeScript*
customer.beyonddevelopments.ae

Beyond Broker | *Next.js, TypeScript*
broker.beyonddevelopments.ae

Golaytics | *Next.js, TypeScript*
goalytics.io

Dubai Police – SWAT Challenge | *React.js, Next.js*
uaeswatchallenge.com
Official event web platform for the Dubai Police SWAT Challenge.

Blaura | *React.js, Next.js*
blaura.ae
Web platform developed for Blaura.

TECHNICAL SKILLS

Mobile Development: React Native, Flutter, Dart, iOS, Swift, SwiftUI, Android, Kotlin

Web Development: React.js, Next.js

Languages: JavaScript, TypeScript, Dart, Swift, Kotlin, HTML/CSS, SQL

State Management & Architecture: Redux, Redux Toolkit, RTK Query, TanStack Query, Native Modules

Backend & APIs: REST APIs, WebSockets, Socket.io, WebRTC, Firebase, Supabase, Node.js

Tools & Services: Git (GitHub, Bitbucket), CI/CD, Xcode, Android Studio, Gradle, CocoaPods, Postman, VS Code, Cursor, Claude, Third-Party SDK Integrations (Stripe, In-App Purchases, Social Login, AdMob)

Testing & Debugging: Jest, React Native Debugger, Flipper

EDUCATION

University of Karachi — Bachelor's in Computer Science *January 2021 – January 2025*
